Pool Internet Protocol (IP) & Intelligent Business Systems All Year Round

When security means protecting commercial and industrial facilities (schools, hospitals, banks, manufacturing plants, etc.), structured cabling systems are integral and imperative. UTP (unshielded twisted pair) and fiber optic networks provide necessary digital bandwidth. Industry standards assure proven, reliable performance when fully compliant, interoperable components are installed, tested and maintained. Graybar and Allen Tel Products, teamed with Allen Tel Certified Installers have the know-how to bring it all together. Allen Tel Category 5e, 6, 6A and fiber connectivity — paired with the industry-leading network cable manufacturers that Graybar supports. Standards-based interoperability — allows customers the choice they require in their network. Tested in house and at nationally recognized test labs — exceeds TIA/EIA568-B standards. 25 Year Warranty — assurance on qualified network installations.

Emergency and Weather Resistant Telephone Solutions

Elevator and Hallways • Outdoor • ADA Compliant • Vandal Resistant

Allen Tel offers a full line of rugged Outdoor/Emergency telephones that are particularly suited for use in campuses, offices, airports, parking garages and industrial locations. Custom engineering and manufacturing are standard services. The variety of complete telephone models includes speakerphones and single and multi-line units using pulse, tone or automatic dialing.

In addition to custom design and engineering, Allen Tel offers all of the supporting accessories and connectivity hardware you need. From dials and handset-hangers to wall plates, surface boxes, jacks and jumpers.

Graybar U.S. Communities Contracts
Electrical – #MA-IS-1340234
Communication/Security – #MA-IS-1040222

Maximize savings on electrical, lighting, data/communication, networking and security products while improving procurement efficiency.

Graybar is the awarded supplier of these materials through the U.S. Communities Program, a national purchasing cooperative developed by government agencies utilizing the pooled power of public agencies nationwide.

Eliminate Three Bids
The Graybar-U.S. Communities contracts were formed specifically to meet the “Joint Powers Authority” for “Cooperative Purchasing” programs via a competitive solicitation bid by a lead public agency, Los Angeles County, CA. These contracts satisfy the competitive solicitation requirement of public agencies in nearly every state. Participating public agencies invest less time and money in the procurement process, leveraging the aggregate volume of other state, local government and educational agencies nationwide.

Leading Association Sponsorship
The U.S. Communities Program is sponsored and recognized by the National Association of Counties, the National League of Cities, the National Institute of Governmental Purchasing, the U.S. Conference of Mayors and the Association of School Business Officials International.

Graybar Quality Service
Graybar's employee owners exemplify the values of teamwork, resourcefulness and reliability. We are certified according to ISO 9001:2008 standards at all domestic branch locations, assuring you consistent service from coast-to-coast.

Best-in-Class Products
Graybar represents the leading manufacturers of electrical, lighting, data/communications, networking and security products. We provide comprehensive product and service solutions to help maximize your facilities' efficiency and save you money.

No Cost to Participate
There is no cost to participate in the U.S. Communities Program. Simply register online at www.uscommunities.org. Registration does not obligate you to purchase through the Program, but it does introduce you to a wide range of products and services at outstanding prices.

eCommerce – U.S. Communities Marketplace
Connect with Graybar through ShopGraybar, the U.S. Communities ePortal, Private Marketplaces or Punch-Out. We make it easy for customers to find products, place orders, check on transactions and much more — 24/7.
