Stay ahead of evolving technology with this special class from Carquest Technical Institute® (CTI).

Advanced Technology Vehicles: Diagnosing Hybrid Battery Pack Systems — 8 Hours

Over the next few years, older hybrids will begin having more issues related to hybrid battery packs. This course focuses on the operation, diagnosis and repair of hybrid battery pack systems in conventional hybrids (non plug-in hybrids). Learn more about component operation and tests, scan tool diagnostics and replacement procedures. Visit www.ctionline.com or contact your Commercial Account Manager for more information.

For more information, contact your local Advance Professional delivery store.
For customer care assistance and technical support, call 1-877-280-5965.
