

# U.S. Communities solution offerings

Data expertise and analytical insight that meet the needs of your community and constituents

State, county and local municipalities face unique challenges and increasingly complex needs. Experian® can help. We've developed specific offerings in 11 focus areas to help your agency achieve mission success.

<b>Child support enforcement</b>	Provides up-to-date contact data for noncustodial parents.
<b>Collections</b>	Maximizes recovery efforts with flexibility and minimal cost.
<b>Contractor responsibility</b>	Delivers essential data for vetting of potential vendors and contractors.
<b>Data breach</b>	Benefit from consumer credit monitoring and call center support for citizens impacted by a data breach.
<b>Data cleansing</b>	Verify and update best addresses for voter registration list hygiene.
<b>Eligibility</b>	Verify applicant identity and validate financial data to determine benefits, monitor credit and financial data in real time for continued benefits eligibility.
<b>Online authentication/Identity management</b>	Authenticate new constituents for e-servicing, online reauthorization of already-registered constituents of e-servicing and using knowledge-based out-of-wallet questions.
<b>Tax return fraud</b>	Improve detection of identity theft-based income tax fraud.
<b>Pre-employment</b>	Enhance your traditional employment decision-making tools — such as job applications, interviews, testing and reference checks.
<b>Public utilities</b>	A verify potential customer's identity and background to make an informed decision so you can better mitigate risk and prevent fraud.
<b>Credit check</b>	Start making the most informed credit decisions by leveraging the best data to check an individual's credit and mitigate risk.

With more than 30 years of experience in data management, we combine cutting-edge technology and analytics with a consultative approach to help agencies gain a deeper understanding of individuals, businesses, markets and economies. Agencies of all sizes and reach can benefit from accurate, comprehensive data and predictive analytics to manage programs and protect against fraud. We're here as a single-source

provider of accurate, up-to-date data and analytical information, providing access to tools to help:

- Protect citizen information.
- Reduce fraud in programs.
- Avoid improper payments.
- Improve revenue streams.
- Collect on outstanding debt.
- Optimize resources.
