

Stericycle Mailback Systems

Maintain a safe and healthy workplace with our assortment of turnkey mailback systems. It's everything you need to properly and safely dispose of your sharps or small quantities of biohazardous waste.

Our systems are comprised of custom designed, FDA approved mailable sharps containers or medical waste pails, a prepaid postage return-by-mail shipping box, manifest and instructions for easy use. Once full, return the container in the provided packaging for destruction at a Stericycle treatment facility. Proof of proper disposal is then provided for your records. Easy, simple and compliant! Go to store.stericycle.com/us-communities to shop our full assortment
